DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for the amendment was granted by Mr. Stavish on 12-7-07.

2. The application has been amended as follows:
 - Cancel claim 3.
 - On the last line of claim 1, replace the period with a semi-colon and place the following language as a new paragraph on the next line:

--wherein at least one of said plurality of micro contacting terminals and said micro contacting pieces has an arch cross sectional shape to define salient contact edges that are adapted to elastically deform when said micro contacting terminals contact said micro contacting pieces. --.

Reasons for Allowance

- The following is an examiner's statement of reasons for allowance:

The prior art does not show an insulator holding a lever, a cable and at least one of a plurality of micro contacting terminals and micro contacting pieces has an arch cross sectional

shape to define salient contact edges that are adapted to elastically deform when the micro contacting terminals contact the micro contacting pieces in combination with all the other elements of the claim and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

- Any inquiry concerning this communication or earlier communications from the examiner should be directed to James R. Harvey whose telephone number is 571-272-2007. The examiner can normally be reached from 8:00 A.M. to 5:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paula A. Bradley can be reached on 571-272-2800 extension 33.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 571-272-2800.

- Applicant is encouraged to send correspondence through the USPTO fax number 571-273-8300.
- Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
